

The logo for SGGB (Strategic Genomic Genotyping Breeding) is positioned vertically in the center. It consists of a stylized 'S' formed by four horizontal yellow bands with wavy, undulating edges. Each band has a thin black outline and a dashed white line running through its center. The letters 'G', 'G', and 'B' are placed to the right of the 'S' band, and the number '10297' is to the right of the 'B' band.

SGGB-10297.
